The Background

Money Sphere approached one of the UK's leading suppliers of high-quality stone kitchen worktops and surfaces. This family-run business operates a world-class factory and showroom showcasing the latest in granite and marble products and installation solutions. From homeowners, interior designers, architects, business owners and kitchen designers to shop and kitchen fitters, This client continuously push the boundaries of material processing capabilities and product quality. They had never done an R&D claim before and we're unsure if they were even eligible for a return so we took the time to visit them, sit down with them and go through each aspect of the business which would be eligible for a return.

We are a licensed credit broker authorised and regulated by the Financial Conduct Authority FRN 821090 . Registered in England and Wales, Money Sphere Limited registered in England and Wales (registered no. 10601271)

The Solution?

Money Sphere worked with the client across two financial periods with terms signed to do the next 3 submissions, with qualifying expenditure from mechanical advancements to new product developments. This helped the company claim back around £60K worth of corporation tax savings across the 2 financial years. This has helped the business to complete their buyout from the previous owners & continue to invest in innovative activities, machines to implement the most cutting-edge machinery and expansion of the product offering.

The Result?

- The client was able to fully pay off their buyout amount from the previous director, using their massive cash injection as the catalyst
- The client has been educated on how to run their business as efficiently as possible thus ensuring all future activities are accounted for correctly
- The client has been able to invest in some of the latest technology which was placed on the back burner
